## News Release

Jan. 23, 2018

## L&A Part of New Los Alamos Legacy Cleanup Team

LAS VEGAS, Nev.—Longenecker & Associates, Inc. is proud to be a part of the Newport News Nuclear BWXT-Los Alamos, LLC (N3B) team selected by the Department of Energy in December for the Los Alamos Legacy Cleanup Contract. L&A is a critical subcontractor on the N3B-Los Alamos LLC team, with a role supporting quality assurance, contractor assurance and other functions on this important project.

“The cleanup mission at Los Alamos National Laboratory (LANL) is a high priority for the nation and we are pleased to be a part of the team that will perform this vital work,” Longenecker & Associates CEO Bonnie Longenecker said. “L&A is a recognized leader in integrating key functions like QA and contractor assurance to enable the mission. We will bring the full experience of our team and board to support a successful transition and mission success at LANL.”

The N3B team is a joint venture led by Stoller Newport News Nuclear, part of Huntington Ingalls Industries Technical Solutions division, with partner BWXT Technical Services Group, a subsidiary of BWX Technologies, Inc. In addition to L&A, Tech2Solutions (T2S), a joint venture between TetraTech and Sealaska Technical Services, is also a critical subcontractor to the team. The \$1.39 billion contract has a base period of five years, an Option 1 period for three years and an Option 2 period for two years, with a total period of performance of up to 10 years and three months.

Since its inception in 1943 as part of the Manhattan Project, LANL’s primary mission has been nuclear weapons research and development. The mission of the Department of Energy’s Office of Environmental Management’s (DOE/EM) is to characterize and remediate contaminants in the environment; decontaminate, decommission and demolish process-contaminated facilities; and manage and dispose of legacy transuranic wastes, thereby reducing risks to the public, workers and the environment associated with legacy material, facilities and waste sites.

Longenecker & Associates, Inc. was founded in 1989, and the company specializes in solving technical and management problems in defense, environmental, energy, high technology and scientific applications for government, utility and other commercial customers.

For more information, please call Longenecker & Associates at 702-493-5363.
