

ALLEN STANSBURY

EXPERIENCE SUMMARY

Allen Stansbury is a certified Project Management Professional (PMP) with over 25 years of experience supporting multiple Federal Agencies and leading cross-functional teams on complex projects. He has demonstrated the ability to implement solutions to project challenges while remaining focused on safety in all operational environments. Allen supports many of the L&A business lines and currently leads the L&A scope of work on the NNSA Enterprise Construction Management Services Blanket Purchase Agreement. Under this contract, he and the ECMS team support the construction, management, and oversight of some of our Nation's most complex nuclear infrastructure projects. Over his career, Allen has been responsible for all aspects of project execution, from equipment operation to the management of large projects. He is a strong leader with the ability to forge solid relationships with strategic partners and build consensus across multiple organizations.

DETAILED EXPERIENCE

Longenecker & Associates – Vice President

2014-Current

- **Enterprise Construction Management Services (ECMS) Program Manager**
 - Currently providing day-to-day management of multiple task orders awarded under the ECMS Blanket Purchase Agreement.

U.S. Army/Army Reserve (Retired)

1992-2018

- Engineer Officer (Retired) with over 25 years of military experience

- Two tours in support of Iraqi Freedom in an Engineering capacity
- Former Enlisted soldier that held multiple Engineering Occupational Specialties
- Four-year tour assigned to the U.S. Army Corps of Engineers
- Graduate of the US Army Sapper Leader Course

U.S. Army Corps of Engineers (USACE)

2010-2014

- **Project Manager Forward – Nashville District**
Uranium Processing Facility; Oak Ridge, Tennessee
 - Worked as the Project Manager Forward in support of the USACE scope on the Uranium Processing Facility (UPF) construction project, estimated at \$6.5B. Main responsibilities included providing leadership and viewing the project from a strategic level in order to position both the UPF/NNSA and the USACE for future success.
- **Project Engineer/Project Officer – Nashville District**
Wolf Creek Dam; Jamestown, Kentucky
 - Worked as a Project Engineer and Project Officer in support of the Wolf Creek Foundation Remediation Project, estimated at over \$594M. Responsibilities included providing technical services in a variety of functions related to the administration and execution of Wolf Creek Dam Foundation Remediation Project.
 - Assigned as the Nashville District Commander's Representative to Wolf Creek. Duties included working with local communities to help identify and resolve issues surrounding the Foundation Remediation Project. Provided update briefings and presentations to local and regional stakeholders, including: The City of Nashville leadership, USACE senior leadership, area Chamber of Commerce offices, the Society of American Military Engineers, Tourism boards, Area Development Districts, and various engineering seminars held throughout the region.
- **Project Engineer/Quality Assurance Officer – Kansas City District**
Ft. Riley, Kansas
 - Worked as the lead Corps of Engineers representative for multiple military construction projects on Ft. Riley. Responsibilities included the review of plans and specifications, on-site supervision and inspection of all construction activities, quality control provisions of the contract, and performing periodic inspections and tests.
- **Liaison Officer – Kansas City District**
Joplin, Missouri
 - Supported the USACE disaster relief and tornado recovery mission following the EF-5 tornado strike in 2011. Assigned as Liaison Officer to the Missouri National Guard (MONG) and Deputy Operations Officer for the Recovery Field Office.
 - Coordinated the efforts of multiple agencies, including FEMA, MONG, local government, and the USACE; revised organizational charts to ensure streamlined processes and reporting procedures; compiled daily progress updates for the State of Missouri and public release; provided oversight for field operations; and assisted the Chief of Operations with the management of a 250 person workforce in an emergency environment.

U.S. Army Facility Engineer Command

2007-2009

- **Contracting Officer Representative, Project Engineer, Quality Assurance Representative
Contingency Operating Base (COB) Adder, Iraq/Ft. Jackson, SC**
 - Worked with senior construction engineers and project managers to develop and execute priority infrastructure missions, projects, and contracts.
 - Coordinated the efforts of local national contractors to successfully execute missions in a contingency environment.

Procurement Forester – Indiana Hardwoods

2006-2008

Provided procurement services for a high production lumber company. Located, determined value, and negotiated the purchase and harvest of forestlands. Contracted logging and haul assets for the cutting and delivery of forest products to various locations; reviewed contracts, harvest plans, and reforestation methods for completeness and accuracy.

U.S. Army Reserve 844th Engineer Battalion

1996-2006

- **Construction Superintendent - Section Sergeant
Iraq, Kuwait/Knoxville, TN**
 - Supervised, trained, and led an Army Engineering section in an overseas environment. Supervised and managed construction projects, ensuring schedules and budgets were established and met, plans and specifications were followed, and safety and security remained the top priority.
