Former Jacobs COO Hagen Joins L&A Board

LAS VEGAS, Nev.—Longenecker & Associates, Inc. announced today that Terry Hagen, who retired last year as Chief Operating Officer of Jacobs and President of the company's Aerospace, Technology and Nuclear business, has joined the L&A advisory board.

Terry, who began his 32-year Jacobs career in the nuclear cleanup sector and served in a senior role on the cleanup of the Fernald site, was one of five named Executive Officers for Jacobs. In his role leading the Aerospace, Technology and Nuclear business for Jacobs, Terry led Jacobs' work for NASA, the U.S. Intelligence Community, the U.S. Department of Defense, the U.S. Department of Energy, the U.K. Ministry of Defence and Nuclear Decommissioning Authority, and the Australian Department of Defence, as well as large public sector customers in the global automotive and telecommunications markets.

He also served on the board of the U.K. Atomic Weapons Establishment (AWE) Management Limited, which is the parent company for the \$1 billion-per-year single-purpose entity that maintains the U.K.'s nuclear defence stockpile. Terry served as a Commissioned Officer in the U.S. military with 11 years as a Civil Engineering Staff Officer for both the U.S. Air Force and the Air National Guard.

"We are honored to have an executive of Terry's caliber join our advisory board as L&A continues to grow across the DOE and NNSA enterprise," L&A CEO Bonnie Longenecker said. "Not only does Terry share our core values, but his experience and leadership is delivering successful missions in the DOE complex and in adjacent markets will be invaluable to our team."

Founded in 1989, Longenecker & Associates celebrated its 30th anniversary last year. L&A leverages that experience throughout the nuclear security and cleanup enterprise to improve mission performance, deliver capital asset projects to schedule and budget, implement effective governance approaches and develop targeted business strategies for both large and small businesses.

L&A also places a strong emphasis on community and educational giving, providing more than \$1 million over the last decade in undergraduate and graduate scholarships, STEM programs and community assistance.
